PROFILE

Proactive Computer Science undergraduate with hands-on experience in Full-Stack Development, Python, Java, and Generative AI API integration. Experienced in building responsive client-server applications, database-driven systems, real-time socket communication, and AI web tools. Strong analytical, problem-solving, and collaboration skills, seeking an entry-level Full Stack Developer role.

TECHNICAL SKILLS

- **Programming & Frontend:** Python, Java(Core), JavaScript, HTML5, CSS3, Django
- **Databases, Backend & APIs:** MySQL, MongoDB, REST APIs, Generative AI APIs, Client-Server Architecture, Socket Programming.
- **Tools & Competencies:** Git, GitHub, VS Code, Jupyter Notebook, TCP/IP, Multithreading, SDLC
- **Soft Skills:** Problem Solving, Leadership, Adaptability, Team Collaboration, Clear Communication

EDUCATION

B.Tech in Computer Science & Engineering | CGPA: 8.4/10 (up to 5th semester) 2023 - 2027
Christ College of Engineering and Technology

Higher Secondary Certificate | 68% 2023
Thiruvalluvar Matric Higher Secondary School, Panruti

Secondary School Leaving Certificate | Pass 2021
The New John Dewey Matriculation School, Panruti

INTERNSHIP EXPERIENCE

Artificial Intelligence & Machine Learning Intern | NexGen Technology

- Implemented core AI/ML routines, data preprocessing, and exploratory data analysis using Python.
- Applied Python-based data analysis techniques to support data-driven development and problem-solving

PROJECTS

- **SkillSphere – AI-Integrated Educational Platform** | Python, HTML/CSS, JS, Bootstrap, GenAI APIs
 - Developed an educational web platform with GenAI-powered course summarization and contextual Q&A features.
- **College Help Desk System** | HTML, CSS, JavaScript, MySQL
 - Built a web-based ticketing system with secure authentication and MySQL-based query tracking.
- **TCP Chat Application** | Java, Socket Programming, TCP/IP
 - Developed a multi-client real-time chat application using Java Socket Programming, TCP/IP, and multithreading.
- **AI Study Planner (In Progress)** | Python, AI/ML Concepts, Web Technologies
 - Developing an AI-powered web application that generates personalized study routines based on user goals.

ACHIEVEMENTS & ACTIVITIES

- 1st Prize Winner – Mind Crush: Secured 1st place in technical symposium competition at MVIT.
- NexBuildON Hackathon Finalist: Qualified for Round-1 Ideathon by proposing an innovative software architecture.
- National Hackathon Participant: Participated in 24-hr ITERYX '26 Hackathon by St. Joseph's ACM & Unstop.
